Product Information Sheet

*These are average values. 3M does not guarantee every product will have these specific test values. Actual values may vary and may be greater than or less than the averages listed.

Feature (has)	Advantage (which means)	Benefit (so that)
Multi-pack format	Ability to share pads within an office	Saves money. Increases collaboration among coworkers.
Assortment of colors	Pleasing colors	Specific points / messages can be highlighted
Numerous size options	Correct size to meet user's needs.	Increases productivity
	Saves paper - use only the size/amount of paper needed to effectively communicate or capture info	Responsible consumption
Repositionable Adhesive	Convenient. Easy to make copies of document without removing staples. Allows you to make comments without damaging the original.	Saves time
	Notes do not hide/cover-up important information	Increases productivity
	Removable, reusable	Easy to use
	Can be applied to a variety of surfaces without damaging them	Reduces worry
Only for notes with printed lines or squares	Allow for well spaced, neat writing	Improve communication with a well written note.

Features

Use resources more responsibly with Post-it® Notes. Sure, they look and stick like your regular Post-it® Notes, but there is a difference – 100% Recycled paper (30% post-consumer waste content) and a Renewable Resource Adhesive 60% from plant that replenish annually.

This means that no new trees were used to make the paper.

- Made from 100% Recycled paper (30% post-consumer waste content)
- Made with a Renewable Resource Adhesive 60% from plant that replenish annually.
- The plant material used to make the adhesive is a non-food plant that grows annually.

ENVIRONMENTAL CHARACTERISTICS

Papers used for Post-it® Recycled Notes are 100% Recycled (with 30% PCW content) and	This certification guarantees the percentage of recycled fibers and the elimination of some substances harmful for environment and human health.	Protection of the environment by reducing the use of natural resources
Papers used for Post-it® Recycled Notes are PEFC RECYCLED certified	This certification helps contribute to the protection of the environment, namely does not impact the old growth forest by using well managed planted woods	Post-it® Notes fulfil customers' environmental expectations by our long history of continuous environmental improvements to minimize the impact of our manufacturing processes and products on the global environment
Renewable resource adhesive is made with 60% Renewable Plant material by weight	This selection helps contribute to the protection of the environment, by using renewable material and reducing dependance on petroleum-based materials. Adhesive is produced from resources which are not harmful to the planet	Encourage more sustainable consumption
Cardboard packs	No individual plastic wrapping of the pads. The primary packaging fulfils dispenser function	Usage of cardboard pack as storage solution. Reducing impact on the environment by reducing waste
Minimized use of ink	The use of less colors and less ink allows an easier de-inking process	Protection of the environment by reducing the consumption and enabling an easy recycling.
Post-It® Notes manufactured in an ISO14001 certified factory with on-going pollution prevention actions and programs	In-process and ultimate paper wastes collected and managed through dedicated waste stream recycling	Manufacturing paper waste shipped to a waste paper collecting company for further recycling
	3M has a strong environmental management system in place according to ISO 14001 standards and regularly checked by notified body since 1996	Pollution risk occurrences minimized at all stages of the manufacturing process as required by ISO14001 principles and practices.
Post-It® Notes can be recycled	Notes can be treated like any other office waste paper (please refer to your local waste management and sorting instructions.)	Notes can be disposed in paper office waste bins, therefore go through the normal paper recycling waste stream

Applications

Post-it® products are designed for indoor use. Post-it® products can be used in cold conditions to sub-zero temperatures, if applied at room temperature. They can be used in conditions as high as 48°C, but may fail in high shear applications at elevated temperatures.

Caution: Cleaning and conditioning products may affect adhesion Colors may bleed when wet. Test before using

Product Information Sheet

Certifications

Post-it® Recycled Notes are PEFC RECYCLED Certified.

3M PEFC Chain of Custody certification number for EMEA is **100% PEFC CH18/0914**, whilst the logo license number to be used on-pack is **PEFC-15-31-0134**

Shelf life

The minimum shelf life of Post-it® Notes sold by 3M Office Supplies Division is two years from the date of manufacture.

To guarantee Shelf life, it is recommended that all Post-it® Notes be stored at optimum conditions (40-60% relative humidity and 15°C-26°C) when warehoused or on retail shelves.

MADE IN Information

Due to weight of paper in the product, all Post-it® Notes carry the mention “Made in USA with globally sourced materials”, even when converted in Europe.

Information for Circular Economy

Post-it® Notes are Recyclable.

In any case, please refer to your local waste management and sorting instructions.

Post-it, 3M, Canary Yellow, Scotch, Magic and the Plaid Design are trademarks of 3M Company.

All express or implied product claims are substantiated and approved for Europe use only. If you intend to use any of the product features listed in any copy accompanying the product for any geographic location outside of Europe, please consult with your local legal counsel.

IMPORTANT NOTICE: All statements, technical information and recommendations contained herein are based on tests 3M believes to be reliable. However, many factors beyond the control of 3M can affect the use and performance of 3M products in a particular application, including materials to be finished with the 3M product, the preparation of those materials, and the conditions under which the product is used. Since these factors are uniquely within the user’s knowledge and control, it is essential that the user evaluate the 3M product to determine whether the product is fit for the particular application. Always read and follow instructions for use and wear appropriate protection for eyes, face, hands, and body.
